2 April 1956

MEMORANDUM FOR : Communications Office  
Attention: [redacted]

SUBJECT : Teletype Circuit Hook-up from [redacted] to Lockheed

1. During my visit to [redacted] on 26 March, [redacted] requested that teletype circuit be hooked up from [redacted] direct to Lockheed. As I understand it, presently the teletype circuit runs direct from [redacted] to the ranch and a direct hook-up exists between Lockheed and the ranch, but no tie-in exists from [redacted] to Lockheed.

2. If my conception is correct, I would like you to arrange to have this tie-in accomplished between [redacted] and Lockheed unless security or monetary conditions prohibit. Please keep me informed on action or non-action in this matter.
